

Notice

To all staff:

Please be advised that a local newspaper journalist will be boarding the ship today for an official interview and scheduled tour.

To ensure confidentiality and operational order during the visit, all staff members are required to remain within their assigned research areas.

Until an authorized announcement is issued, no personnel are permitted to leave their designated work zones or enter the machinery space for any reason.

Your cooperation is essential and appreciated.

Please conduct regular duties as usual and await further instructions from the operations office.
